Global Dialogue

Theme
Advantage Asia Pacific? Implications of the populist vote in Europe and America.

Abstract
How will the Trump presidency, Brexit and political uncertainty in Europe impact education mobility and cooperation within and between regions? Have we passed the peak of globalisation? There will be winners and losers from recent developments, but international education and the internationalisation of education isn’t a zero sum game – far from it. As educators our work is to foster and strengthen international understanding and collaboration. Speakers representing regional and national organisations will debate opportunities for the sector to make a positive difference in difficult times.

Chair
William ARCHER, Chief Executive, i-graduate
